ROLAND RUDIYANTO

089521960174 | rolandrudiyanto53@gmail.com | www.linkedin.com/in/roland-rudiyanto-32454728a
Jakarta, Indonesia

Software Engineer with a strong focus on backend development and AI automation. Experienced in building APIs, managing databases, and setting up automated workflows to simplify business processes. Comfortable working across the full development lifecycle using Go, Python, Django, FastAPI, and tools like n8n and LangChain to solve real-world technical challenges.

Work Experiences

PT. Infracom Technology - **Jakarta, Indonesia** Aug 2025 - Present

Application Developer

- Led the end-to-end development of internal business applications, handling everything from business logic design to API integration.
- Built and deployed automated workflows using n8n and LangChain to cut down manual operational tasks.
- Developed the backend for a new HR recruitment platform using Go, Prisma ORM, and FastAPI to ensure fast and secure data handling.
- Created responsive frontend components using ReactJS and NextJS tailored to internal company needs.
- Maintained VM-based development servers and set up CI/CD pipelines with GitLab, Gitea, and Jenkins for smoother deployments.
- Explored hardware-based encryption and cryptographic management by testing and configuring the Utimaco HSM Simulator.
- Acted as the PIC (Person in Charge) for a corporate website revamp, shifting the architecture to microservices to improve scalability.

PT. Inti Utama Solusindo (Pharos Group) - **Jakarta, Indonesia** Dec 2024 - Aug 2025

Backend Developer (Contract)

- Developed and maintained core backend features for company applications using Django and PostgreSQL.
- Built RESTful APIs to connect internal systems with external third-party services securely.
- Managed database structures and handled data migrations while keeping queries optimized and the system stable.

PT. Inti Utama Solusindo (Pharos Group) - **Jakarta, Indonesia** Jan 2024 - Dec 2024

Backend Developer (Internship)

- Helped build new features for internal systems using Django and PostgreSQL.
- Worked closely with the frontend team to integrate APIs and fix bugs.

Education Level

Universitas Tarumanagara - **Jakarta, Indonesia** Aug 2021 - Mar 2025

Bachelor of Information Systems, 3.92/4.00

- Organized student programs and extracurricular activities as part of the Student Executive Board (BEM) to help build a closer IT faculty community.
- Managed the committee's food logistics and provided on-site medical support as the Head of Consumption and First Aid for the FTI Comp event.
- Worked on the security and first aid team during the faculty's Welcoming Party to keep the crowd safe and ensure the event ran smoothly.

SMA Santo Bernadus Pekalongan - **Pekalongan, Indonesia** Jun 2018 - Jun 2021

High School Diploma in IPA

Skills, Achievements & Other Experience

- **Backend & Programming Languages**: Go (Golang), Python, C (Programming Language), Django, FastAPI, Node.js, COBOL
- **Frontend Development**: React.js, Next.js, JavaScript, HTML & CSS
- **Database & Low-Code Platform**: PostgreSQL, Microsoft SQL Server, MySQL, Prisma ORM, GORM, Oracle APEX, OutSystems
- **Cloud & DevOps**: Oracle Cloud Infrastructure (OCI), Cloud-Native Architecture, Continuous Integration and Continuous Delivery (CI/CD), Jenkins, GitLab, Gitea, Microservices, Linux System Administration
- **Security & Tools**: Hardware Security Modules (HSM), Cryptography, Git, Postman
- **AI & Automation**: Artificial Intelligence (AI), Generative AI, n8n, LangChain, Workflow Automation
- **Associate Developer (O11) - OutSystems** (2026): Earned the Associate Developer certification from OutSystems, demonstrating the ability to design, build, and deploy enterprise-grade applications using low-code methodologies and best practices.
- **Oracle Cloud Infrastructure Certified AI Foundations Associate** (2026): Validated foundational knowledge in Artificial Intelligence and Machine Learning concepts, including the implementation of AI services and Generative AI within the Oracle Cloud Infrastructure (OCI) ecosystem
- **Oracle APEX Cloud Developer Certified Professional** (2025): Certified as a Professional Oracle APEX Cloud Developer, proving

advanced expertise in rapidly building scalable, secure, and data-driven enterprise applications on the Oracle Cloud

- **Oracle Cloud Infrastructure 2025 Certified DevOps Professional** (2025): Demonstrated professional-level skills in designing and managing CI/CD pipelines, automating infrastructure deployment, and implementing cloud-native DevOps operations on Oracle Cloud
- **Oracle Cloud Infrastructure 2025 Certified Developer Professional** (2025): Acquired professional certification for developing, securing, and deploying robust cloud-native applications utilizing Oracle Cloud Infrastructure services, APIs, and modern architecture patterns
- **Belajar Membuat Front-End Web untuk Pemula (Dicoding Indonesia)** (2023): Completed a practical course on building interactive and responsive front-end web interfaces, focusing on DOM manipulation and modern JavaScript practices
- **Memulai Pemrograman Dengan C (Dicoding Indonesia)** (2023): Mastered the fundamental concepts of C programming, covering variables, data types, control structures, and memory management basics to build a strong logic foundation.
- **Belajar Dasar Pemrograman Web (Dicoding Indonesia)** (2023): Gained hands-on experience in structuring and styling semantic web pages from scratch using standard HTML and CSS best practices
